NEW YORK, Oct. 12.—Action by the British parliament approving the half billion dollar Anglo-French loan in this country is expected today. As France has approved it this will officially legalize the loan. Then only one step remains to be taken—that of signing the agreement tomorrow morning at the Biltmore Hotel, Lord Reading and his associates and American bankers will be present. Financial men today said a campaign advertising the bonds will be started soon. It is expected the new notes will be offered to the public some time this week.

Confers With Congressman Sherley of Kentucky More Than an Hour About Problem

National defense programs and the problem of financing them were dis-cussed for an hour today by President Wilson and Congressman Swagar Sherley of Kentucky, who is slated to succeed Congressman John J. Fitzgerald of New York as chairman of the Hous Committee on Appropriations, if the latter wins in his campaign for one of the judgeships in New York.

latter wins in his campaign for one of the judgeships in New York.

Mr. Sherley is chairman of the special committee of Congress appointed to devise a budget system for Congress. He told the President that although it would not be possible by law to gut a budget system into operation this fall, some of its features could be adopted informally.

He proposed that the House decide in advance on the grand total of appropriations to be expended and then alloit to each object, such as the national defense, river and harbor improvements and the like the amount of money available for each.

To this end he obtained the approval of the President to a plan for the calling of a conference between the members of the budget committee on the one hand and the President and his Cabinet on the other to work out the budget scheme.

Mr. Sherley said he expected that Congress this year would appropriate money to begin the erection of giant for which has already been purchased. The proposed fort will have 16-inch guns of a power sufficient to command all approach to Hampton Roads as well as the lower part of Chesapeake bay.

## small party, including the observed of the Treasury and Mrs. McAdoo. Mr. and Mrs. McAdoo leave today for a trip through the West. Because of the departure of the McAdoos and because Miss Margaret Wilson, eldest daughter of the President, will not return to Washington until October 20, it is considered unlikely that the wedding of the President and Mrs. Galt will take place before the latter part of November or early in December. Congress convenes on December 5, and for a few days before that the President probably will be busy composing his annual message. The meeting of Congress also will bring extra duties and many conferences with party leader. For this reason those who are prone to prophecy have narrowed down the probable time of the President's marriagu to sometime between November 20, the date of Miss Wilson's return to the city, and the close of November. **ASK FOR INCREASE**

Army officers are expected to keep out of political campaigns.

This was made plain today when it became known that Capt. Charles II. Morrow, of the Eighteenth Infantry, has been directed by the War Department to refrain from making speeches in support of his brother. E. P. Morrow, who is Republican candidate for governor of Kentucky.

All male Serbians between eighteen and forty were summoned by the Serbian legation here today to join the colors under penalty of court-martial.

#### AUSTRO-GERMANS DRIVEN BACK.

NISH, Serbia (via London), Oct. 12.—Hurled back at many points along the Danube, Save and Drina rivers, the Austro-German forces are making no progress today with their attempted Serbian invasion, except in Belgrade and its immediate vicinity.

Along the Danube the Serbians have repulsed all attacks between the town of Flawa and the Morava river mouth. In this section, assuming a violent counter-offensive, the Serbian troops drove the enemy's forces, which had already crossed the Danube, back to the Hungarian side, and captured four howitzers and four Maxim guns.

Another attempted crossing between Smederevo and Godomins was repulsed, except for a small Austro-German detachment which reached Smederevo only to be annihilated or chased back in such haste that the men threw them-
